Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 December 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

1. Claim 3 is pending in this communication filed 12/12/06 entered as Response to Non-Final Action and Extension of Time. Claim 2 has been canceled and new claim 3 added.

Specification

2. The Specification is objected to because Page 53, line 10 ("Brief Description of The Drawing") recites "The appended drawing is a ...". This line should recite "FIG. 1 is a ...". Also, the drawing figure is not described in the Specification in relation to the elements (i.e., Investment Capital, Pooled Risk Management, Insurance Function, etc.) in the drawing figure. Correction is required. See MPEP § 608.01(b).

Drawings

3. The drawings are objected to because the drawing figure should be labeled "FIG. 1" or "FIGURE 1". Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date

Art Unit: 3694

of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

4. Claim 3 is objected to because of the following informalities: The preamble recites "A process for developing an ecosystem asset management method, comprising the steps of:". The preamble would be better recited as "A method for developing an ecosystem asset management, the method comprising the steps of:". Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claim 3 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The claim limitations of Claim 3 are not found in the Specification and the drawing figure does not show the claim limitations of Claim 3. The Specification and the claim limitations of Claim 3 are not in agreement.

Applicants' are respectfully requested to map each of the claim limitations to the pages and line number(s) in the Specification which support each claim limitation as evidence of such support, if Applicants' believe the claim limitations are supported by the Specification. Otherwise, the new matter must be canceled.

Claim Rejections - 35 USC § 112

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3 contain a clause of intended use in the independent claim which renders the claim indefinite. Specifically, claim 3 (a) recites "..., wherein step (a) is performed by a first party;". Steps (b) – (d), (h), (k), (n), (o), and (p) have a similar problem. Step (a) would be better recited as " developing an experimental process that deviates from an accepted standard process with said experimental process meeting conformance specifications for improving the condition of an ecosystem asset performed by a first party;". Steps (b) – (d), (h), (k), (n), and (p) can be recited similar to step (a).

The Examiner considers these limitations to only recite what is expected to happen, a desired result, or an intended use. The MPEP discusses a type of limitation in reference to "wherein" clauses. MPEP § 2111.04 states:

Claim scope is not limited by claim language that suggests or makes optional but does not require steps to be performed, or by claim language that does not limit a claim

Art Unit: 3694

to a particular structure. However, examples of claim language, although not exhaustive, that may raise a question as to the limiting effect of the language in a claim are:

- (A) "adapted to" or "adapted for" clauses;
- (B) "wherein" clauses; and
- (C) "whereby" clauses.

The MPEP also states in 2172.01:

... a claim which fails to interrelated elements as defined by applicant(s) in the specification may be rejected under 35 USC 112, second paragraph, for failure to point out and distinctly claim the invention.

Inquiries

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ella Colbert whose telephone number is 571-272-6741. The examiner can normally be reached on Monday, Tuesday, and Thursday, 5:30AM-3:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Trammell can be reached on 571-272-6712. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
